

PROJECT FACTS

VINEYARD CONNECTOR PROJECT DETAILS

- Length: approximately nine miles from I-15 interchange at American Fork Main Street to 800 North in Orem.
- New road will serve the communities of Lehi, American Fork, Lindon, Vineyard, Pleasant Grove and Orem.
- Corridor runs between I-15 and Utah Lake.
- Road crosses FrontRunner tracks at three separate locations.
- Road connects to a planned intermodal center in Vineyard and a commuter rail station at the American Fork Main Street interchange. Also provides infrastructure for FrontRunner and expanded UTA bus service.
- Currently under state environmental evaluation.
- MAG identified the need for this corridor in its 2030 long-range transportation plan published in 2007.
- Project team is coordinating with other area projects.
- Impacts to wetlands: less than 3 acres.

FUNDING:

- Current funding: \$200 million for environmental, design and right-of-way acquisition.

PROJECT SCHEDULE:

Phase	Milestones
Environmental	Underway
Decision document	Fall 2008
Alternatives meeting	June 2008
Preferred alignment	Fall 2008
Contractor selection process	Winter 2008
Contractor proposals due	February 2009
Award design-build contract	March 2009
Notice to proceed	March 2009
Construction begins	Spring 2009
Construction ends	Fall 2010
